- 1) The device with the ID 023-02-0002(017-02-0004) complies with the ISO 14644-17:2021 standard
- 2) The customer has 8 working days to complete data acquisition and upload. Within 2 working days after uploading, the customer will receive a report on the results. If the customer fails to return the plate on time, a fee of €150 will be charged for each week of delay.
- 3) Validity 1 year.
- 4) Repairs will be addressed and quoted separately.
- 5) The upgradability of your software is contingent on the PDM version and the OS version.
- 6) A "day" is defined as a working day (excluding weekends and holidays) from 8:00 to 17:00 hours CET (+1)
- 7) The package includes items 023-05-0100, 024-05-0105, 024-05-0106, and a replacement PDM(IV) during PDM maintenance. Note that shipment costs are not covered.

Note:

- Quotations obtained by request have a validity of 3 months starting date of issue. Lead time up to 12 weeks.
- All prices are ex. VAT and ex. works
